

### Across

- 2 Packaging container with square sides (3)
- 3 Rounded vault-like architectural structure (4)
- 7 Highest point or top of a mountain (6)
- 9 Bend in geological strata due to earth movement (4)
- 10 Material settled at the bottom of a body of water (8)
- 12 Elevated landform resulting from tectonic forces (6)
- 13 Naturally occurring inorganic substances with defined chemistry (8)
- 15 Gradual wearing away of land by natural forces (7)
- 17 Moving air that shapes desert landscapes (4)
- 19 Inclined surface or gradient of land (5)
- 22 Relating to deposits from flowing water (8)
- 23 Flat expanse of land with minimal elevation changes (5)

### Down

- 1 Steep rock face formed by erosion or faulting (5)
- 2 Dark, fine-grained volcanic rock (6)
- 4 Large natural elevation of the earth's surface (8)
- 5 Natural flowing watercourse (5)
- 6 Largest volcano in our solar system (7,4)
- 8 Outermost solid layer of a planet (5)
- 11 Interconnected feeding relationships in an ecosystem (4,3)
- 13 Hawaiian dormant volcano with observatories (5,3)
- 14 Africa's longest waterway (4)
- 16 Linear zone where earth's crust is being pulled apart (4)
- 18 Fine sediment carried and deposited by water (4)
- 20 Molten rock that flows from a volcano (4)
- 21 Pointed top of a mountain (4)
