

Across

- 1 Prehistoric remnant of ancient life form (6)
- 2 Severe weather events with strong winds and rain (6)
- 4 Plants grown on farms for food or materials (5)
- 6 Large areas covered predominantly with trees (7)
- 8 Northernmost region of Earth surrounding the North Pole (6)
- 11 Overflow of water onto normally dry land (8)
- 13 Capacity to do work or provide power (6)
- 16 Planet we inhabit, third from the sun (5)
- 17 Natural environment where an organism lives (7)

Down

- 1 Inundations of water on previously dry areas (6)
- 2 Large body of salt water (3)
- 3 Withdrawal or movement away from a position (7)
- 5 Animals that transfer pollen between plants (11)
- 7 Relating to the sun or its radiation (5)
- 9 Seasonal movement of animals from one region to another (9)
- 10 Relating to cities and densely populated areas (5)
- 12 Vast bodies of saltwater covering most of Earth (6)
- 14 Variety of plant and animal life in a habitat (12)

- 20** Substances that provide nourishment for growth (9)
- 21** Edible substances consumed for sustenance (4)
- 22** Arid regions with minimal precipitation (7)
- 24** Permanently frozen ground in polar regions (10)
- 26** Increase in average temperature (7)
- 27** Frozen water in solid state (3)
- 29** Process of deterioration or decline in quality (11)
- 30** Basic physical systems serving a community (14)
- 33** Relative heights or positions on a scale (6)
- 34** Amount of product obtained from a process (6)
- 35** State of being protected from harm or danger (8)
- 36** Substances released into the atmosphere (9)
- 37** Farm animals raised for food or products (9)
- 15** Outermost solid layer of Earth (5)
- 18** Measure of heat or cold in a substance (11)
- 19** Rainwater that flows over land surfaces (10)
- 21** Profession of cultivating land and raising crops (7)
- 23** Reptiles with protective shells (7)
- 25** Practice of cultivating soil and raising livestock (11)
- 28** Marine invertebrates forming reef structures (5)
- 31** Ridge-like structures in shallow ocean waters (5)
- 32** Chemical element essential to all organic compounds (6)
